

TIRED, WEAK, NERVOUS, Could Not Sleep.

Prof. L. D. Edwards, of Preston, Idaho, says: "I was all run down, weak, nervous and irritable through weak, nervous training overwork. I suffered from brain fatigue, mental depression, etc. I became so weak and nervous that I could not sleep, I would arise tired, discouraged and blue. I began taking

Dr. Miles' Nervine and now everything is changed. I sleep soundly, I feel bright, active and ambitious. I can do more in one day now than I used to do in a week. For this great good I give Dr. Miles' Estorative Nervine the sole credit.

It Cures."

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. All druggists soil it at \$1,6 bottles for \$5, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

MONEY AND BUSINESS.

Some Facts That Democrats May Now Study Unbiased

NOT TOLD FOR POLITICAL EFFECT

Because the Campaign is Now Over The "Great Business Revival" That Has Not Materialized-Stagnation in Business-Uncomfortable Facts Which Democratic Politicians Ignored.

Atter Tuesday several hundred jour nals will be able to see facts to which they are now obstinately blind. One of the facts they will see is that business, though a little better than a year-ago shortly after the great panic, is far behind that of a prosperous year. The actual payments through clearinghouses in October were \$4,284,000,000 in twenty-seven working days this year, against \$4,043,000,000 in twenty-six working days last year, and \$5,439,000, 900 in twenty-four working days in 1892. The daily average was, therefore, 1897. millions, against 1852 millions last year, and 228.6 millions in 1892, so that just 70 per cent of the business of 1892 was transacted in October, against 68.6 per cent last year. The gain is encouraging, but is not quite enough to justify the shouting of some politicians. Part of the depression is expressed in Part of the depression is expressed in lower prices, both for farm and other products, which have been 7.3 per cent lower than last year and 10.7 per cent lower than in 1892. Taking this into account, the volume of all business expressed in quantities is 78.5 per cent of the business in 1892, whereas last year it was 71.1 per cent. In other words, there is work—at low wages—for a little over four-fiths of the working force two years ago, though since that time the people who cught to be at work have increased in number about

3 per cent.

These are the uncomfortable facts which men have to ignore who talk about the great revival of business. about the great revival of butters. Failures are much less important than a year ago "Dun's Review" making the liabilities for four weeks only \$8,206,892, against \$22,480,786 for the same weeks last year, but the aggregate is much larger than it was two years ago, and the number of failures in four weeks has been \$64 against 149 last year, and \$824. been 964, against 1,449 last year and 824 in 1892. A thousand failures in a month hardly denote general prosper-ity. The unnaturally low prices, lower ity. The unnaturally low prices, lower in October than ever before, are drivin October than ever before, are driving a great many traders and manufacturers out of business, and those who survive, have, on the whole, less to do and smaller profits than in the years of prosperity. Raiiroad earnings thus far for October are 4.3 per cent less than last year in the United States, and 11.3 per cent less than in 1892, which shows a smaller loss than in September, but within the last week or two the cutting of rates has become a serious matter. of rates has become a serious matter. Stocks have been weak on the whole though recovering some toward the close, so that the average is only 12 cents per share of \$100 lower than a week ago, while the average for trusts

ork have increased in number about

week ago, while the average for trusts is 44 cents per share lower.

The drop in cotton to 5½ cents finds explanation enough in the enormous receipts. More cotton came into sight last month than in any previous month in the whole history of the trade—namely, 2,101,227 bales, against 1,637,555 last year; 1,405,067 in 1892 and 2,020,205 in 1891. The exports were 201,000 bales larger than last year, and the taking of spinners about twice as large as last year, but the quantity in sight here and abroad increases greatly. The demand for goods does not improve, and the supplemental orders expenses. prove, and the supplemental orders expected after the heavy sales in September do not arrive in sufficient quantity to keep all the mills employed, so that concessions in prices have been made to secure large contracts. Prices of to secure large contracts. Frices of wool are weaker, particularly for Ohio, Michigan, New York and Pennsylvania fleece, and the average of 104 quotations by Coates Brothers is 14.12 coata, against 14.32 October 1 and 14.8 in the middle of August. A year ago the uverage of the same qualities was 15.96 cents, and two years ago 22.7 cents. But with free trade prices for wool and McKinley duties still remaining on woolen goods, the manufacturers are McKinley duties still remaining on woolen goods, the manufacturers are only partially employed, and sales of wool at the three chief markets during the week were 4,004,900 pounds, against 7,050,953 in the same weeks of 1892, while for the five weeks passed the sales have been 29 per cent less than in

The shoe trade is doing a heavy busiess in number of cases shipped, the ness in number of cases shipped, the Shoe and Leather Reporter making Boston shipments 417,661 cases for Oc-tober, against 288,864 last year, and 385,-646 in 1892, but the fall in qualties pur-chased has been so great that the value of goods distributed must be about a quarter less than it was two years ago. The shops producing cheap goods are fully occupied, though it is stated that the aggregate demand for all kinds is far the aggregate demand or all kinds as an below that of ordinary seasons. Much is made in some journals of the increase in iron output after the coal and coke strikes ceased, and there has been some further increase of late in a few branches of the business, but the average decline in prices of all kinds of iron and steel has been 20.4 per cent since October in prices of all kinds of iron and steel has been 29.4 per cent since October 1892, while the production is about 30,-000 tons per week less than the maximum, so that the product of this great industry, instead of 1,000,000,000 yearly, has been reduced to less than 600,000,-000. The narrowness of the demand still depresses prices, though plates are a shade stronger, and a conferense of steel rail-makers refused to reduce prices, although purchases of British rails for California use show that part of the American market is in danger.

Wheat has recovered a little during

of the American markets in unage. Wheat has recovered a little during the week, but is still below 56 cents. The quantity in sight November 1 was 105,874,000 bushels, against 83,205,000 last year, and 78,624,000 in 1892 and 50,524,000 in 1891, and 37,938,000 in 1890. Exports continue moderate, being less than 3,000,000 bushels for the week from both coasts, flour included, but with al-together unprecedented stocks in sight, and the large movement from farmers, in spite of the lowest prices ever known there is little chance for speculation there is little chance for speculation. Corn advanced nearly 2 cents, and pork and hog products were generally a shade lower. The lowest average ever made for all commodities was about a week ago, but the recovery since has been insignificant, only about 4 per cent, though enough to put the average slightly higher than it was July 21.

The treasury meets a deficit of about \$13,500,000 in October, its customs receipts being scarcely \$1,000,000 greater than last year, while its intercal receipts were \$6,200,000 smaller and its expenditures \$3,100,000 greater. The

ceipts were \$3,200,000 smaller and its expenditures \$3,100,000 greater. The imports at New York for four weeks have been \$33,666,044, against \$32,608,310 last year, but the imports of sugar were only \$1,193,283, against \$4,781,174, while the imports of ry goods were \$6,059,643, against \$4,037,381, and the imports of all other articles \$25,514,018,

against \$23,249,755 last year. The increase of just 50 per cent in dry goods, against 10 per cent in other articles except sugar, shows where the new tariff makes the greatest difference. The exports for four weeks have been over \$5,000,000 less than last year, or 16 per cent, but the excess of exports last year was so great that a considerable excess must appear this year also, and the tendency of ioreign exchange toward the gold exporting point can be explained only by withdrawals of foreign capital. The extreme stagnation in the commercial loan market, and in the commercial loan market, and the enormous accumulation of idle money, comment forcibly on partisan stories of great business revival.

RAILWAY TRAVEL IN INDIA. Wild Beasts and Domestic Animals Can Go at Double the "Dog" Rates.

Harper's Magazine for November. The railway handbooks abound with curious information and rules interest ing to the naturalist. "Sheep, pigs, goats, calves, if sent singly; small tame deer, etc., and tiger, panther and cheetah cubs in cages, and which are so young as to be harmless, if carried by passenger trains, are charged at do the dog rates for each animal." "

the dog rates for each animal. Late, ferrets, mongooses, monkeys and rab-bits, secured with a collar and chain, are chargeable as dogs."

Prudent natives, when shifting their quarters during the anake season, frequently take along the family mongoose as a precautionary measure. For those unfamiliar with this unprepossessing but harmless little beast it may be here remarked that he belongs to the ichneumon caste, and as his vocation is the killing of snakes, he is everywhere a welcome visitor. He looks something welcome visitor. He looks something like an under-sized otter, is quick and spasmedic in his movements, and is often found under the bed in a long vacant Dak bungalow, whence he suddenly scuttles away as the door is opened, and disappears with a whisk of his tail in the chimney place or down the nearest

MONEY IN A WELL,

Robbers of the Homer Bank Hid it Three Years Ago. Slove City Tellaine.

Funds that were stolen from the Homer State Bank in October, 1891, were discovered Monday, and a clew found that will probably lead to the convic-tion of the thief. Over \$1,000 was dis that will probably lead to the conviction of the thief. Over \$1,000 was discovered at the bottom of a well in which
the water had run low. There was
\$505 in currency, in a very bad condition, \$508 in silver, as black as pitch,
and \$65 in gold, which was as good as
when put in. The total amount found
was \$1,078 50. The well is on property
occupied by J. M. Frisbie at the time he
was cashier of the bank. He had received \$1,500 in an express package
just before the robbery, and receipted
for it. He claimed at the time of the
robbery that he had just returned
home from a dance when two masked
men made him march to the bank,
open the safe and give them
the
money. They then tied both his hands
behind his back to the handle of a
door, where he remained all night. The
story was hardly credited at the time.

SPORTING "SCHOOL MARM."

SPORTING "SCHOOL MARM." Gives Her Pupils Horse Names and They

Race and Like It. There is a teacher in a school in Logansport, Ind., who strives hard to be up to date in her methods. She has encouraged the scholars to run races. instead of playing football and other ordinary games. Each child is named after some fast horse, and the teacher has their records in a little book. The has their records in a little book. The entry lists are said to be full every day, and in the evening the parents hear the young folks tell how Robert J. broke his record, or how Joe Patchen made a phenomenal finish, and Online came down the stretch like a whirlwind. The patrons of the school are becoming alarmed, and the curriculum is likely to be revised at an early date.

Pensions to West Virginia.

washington, D. C., Nov. 6.—The following pensions have been granted to West Virginians:

Renewal and increase—Ezra D. Ben-son, Terra Alta; William H. Hunter,

Basnett.
Residne—Samuel Smith, Sea Flat;
James M. Hamilton, Evansville; Benjamin F. Wells, Goose Neck; John R.
Shaffer, Terra iAlta; John R. Tolbort,
Jesso Dean, Grafton; David Calhoun,

Ellenboro. Increase—Jonas M. Lees, Fairmont; Archibald Pack, White's Creek; Samuel

Archibaid Fack, White 8 Cree; Samuel Sheets, Bridgeport. Original — Ebenezer C. Thomas, Moundveille; Simon M. Robinson, Arden. Supplemental—Jesse Robinson, Cecil. Mexican war survivors—(Increase)—

Isauc D. Williams, Hurricane. Original widows, &c.—Mahala J. Stevens, Grantsville; Belvia McDaniel, Thornton; Rebecca Grass, St. Albans.

Four Big Successes.

Having the needed merit to more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale, Dr. King's New Discovery, for consumption, coughs and colds, each bottle guaranteed—Electric Bitters, the great remedy for liver, stomach and kidneys, Bucklen's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them and the dealer whose name is attached herewith will be glad to tell you more of them. Sold at Logan Drug Company's drug

W. A. McGuing, a well known citizen of McKay, Obio, is of the opinion that there is nothing as good for children troubled with colds or croup as Chamberlain's Cough Remedy. He has used it in his family for several years with the best results and always keeps a bottle of it in the house. After having la grippe he was himself troubled with a severe cough. He used other remedies without benefit and then concluded to try the children's medicine and to his delight it soon effected a permanent cure.

"A Friend in Need is a Friend Inde

A friend advised me to try Ely's Cream Balm and after using it six weeks I believe myself cured of catarrh. It is a most valuable remedy.—Joseph Stowart, 624 Grand avenue, Brooklyn,

N. Y.
My son was afflicted with catarri, I
induced him to try Ely's Cream Balm
and the disagreeable catarrina smell ail
left him. He appears as well as any
one.—J. C. Olmstead, Arcela, Ill. Price of Cream Balm is fifty cents.

If the Baby is Cutting Teeth,

Be sure and use that old and well-tried remedy, Mis. Wisslow's Scorning Syster for children teething. It soothes the child, softens the gume, allays all pain, cures wind colic and is the best remedy for diarrhom. Twenty-five cents a
